CAUTION

Read all of these instructions before installation:

1. Turn off power at fuse box before installing/maintaining/servicing/modifying the system

2. Do not install in damp or wet locations

3. Do not attempt to energize anything other than a qualified lighting fixture

4. Check with a qualified electrician before wiring

5. Confirm installation shall be in accordance with NEC and all local codes

NOTE: If you need to shorten the pendant length, please refer to the quick pendant field cut instructions below

Save these installation instructions and refer to them when additions or changes to configurations are made
